Video (1-minute): [How to Find Hearing Loops in Google Maps](#)

## About Assistive Listening Systems (ALS)

If a location does not have a hearing loop, they should have a FM or IR system. Under the Americans with Disabilities Act (ADA), the following places (employment, state and local government, businesses, and nonprofit organizations) are required to have an assistive listening system, either a hearing loop, FM system, or infrared system:

1. In ALL indoor or outdoor areas or rooms, with a public address system.
2. In all Courtrooms
3. Where Effective Communication is needed, such as service counters, rooms without public address systems, etc.

Places of worship are commonly exempted under the ADA, but depends on activities, funding sources, and state or local building codes or regulations. For full inclusion, many places of worship wonderfully choose to have an ALS.

See a list of the Types of Places REQUIRED to Have Assistive Listening Systems ([webpage](#))

Hearing Loops are the gold standard for assistive listening systems and are strongly preferred by users. Hearing loops are the easiest to use – just click a button on the hearing aid or cochlear implant to instantly connect to the room’s PA system. No equipment to borrow. Discrete.

## To learn more

**Center for Hearing Access (CHA)** [www.hearingloop.org](http://www.hearingloop.org)

Founded in 2024, the nonprofit Center for Hearing Access is a national advocacy and education initiative of The John G. Shedd Institute for the Arts in Eugene, OR. We champion and educate users, sites, hearing instrument specialists, and audiologists about ADA-compliant assistive listening systems and other strategies to increase access to theaters, libraries, conferences, government offices, courtrooms, and other public and private spaces. Effective hearing access can be life-changing for people with hearing loss to maintain community engagement. We create and provide advocacy materials, ADA information, a speaker’s bureau, videos, templates for users and operators, articles, and vendor lists.

**Hearing Loss Association of America (HLAA)** [www.hearingloss.org](http://www.hearingloss.org)

HLAA Get in the Hearing Loop Program information and advocacy tools.
