About the Center for Hearing Access

Founded in 2024, the nonprofit Center for Hearing Access is a national advocacy and education initiative of The John G. Shedd Institute in Eugene, OR. We champion and educate users, sites, audiologists, and hearing instrument specialists about all ADA-compliant assistive listening systems and other strategies to increase access to theaters, libraries, conferences, government offices, courtrooms, healthcare facilities, places of worship, and other public and private spaces. Effective hearing access can be life-changing for people with hearing loss to maintain community engagement. We provide advocacy tools, ADA info, videos, presentations, and vendor lists for ADA-compliant assistive listening systems.
